

### **Guide Lines to the Exams.**

Greetings AFL 1502 students! I hope the following guideline will help you to prepare for November/ December 2017 examinations.

The first and the second question will require you to understand the concept of ubuntu. Also engage with the formation of words, syntax and other grammar aspects in tutorial letter 102. It is in the additional resources. You need to understand nouns, their grammatical explanation and function in an African language. Furthermore study the sounds (phonetics).

The third question will require you to understand different types of oral literature such as proverbs, folktales and other forms of folklore. Furthermore engage yourself with the novel, short stories and other aspects of modern literature such as drama in your preparation for the examinations in this question.

Question four is based on the persuasive expressions, are you also able to express yourselves in your totems? Find time to study persuasive expressions.

I wish you luck in your examinations.

DR. T.M. Monyakane.
