COMPILING A WORK PLAN: WHY INFORMATION LITERACY IS ESSENTIAL IN AN INFORMATION SOCIETY.

MAIN TOPIC: discuss why information literacy is essential in an information society

KEY WORDS: information literacy

Action words: discuss

AUDIANCE: lecture

FORM: academic essay

My thoughts

- ❖ The topic requires me to discuss why information literacy is essential in an information society this means I have to discuss in facts the value or importance of information literacy.
- ❖ It will also be of good character if I also discuss few of the vital roles that information literacy has played in an information society
- ❖ Think outside of the box about ethics in the information society.
- ❖ The word “discuss” means that I really need to talk thoroughly why information literacy is important in an information society.
- ❖ I think it will also be of importance if I include the machines tools of information society because their also part of information society(ICTs)
- ❖ In Order for my reader to understand or to have a clear vision about what i am on about I need to define my keywords in depth.
- ❖ In my essay i am not allowed to copy definitions from my prescribed book or study guide this means that I will have to access the internet and dictionary to come up with clear definitions for my key words.
- ❖ I am required to come up with one definition relevant to the topic in my own words in order to do so i will consult different source to come up with 1 meaningful definition.
- ❖ I am not allowed to copy the example of a work plan from my study guide this means that i have to look up to it only to be guided on how to compile a work plan or to be clear on how to compile a work plan.
