EACH AUDIO FILE IS CHARGED IN THE REGION OF R150 PER AUDIO FILE. HOWEVER, SOME FILES COULD BE LESS. THERE ARE A LOT OF FREE FILES TOO. IT ALL DEPENDS ON HOW LARGE THE FILES ARE AND WHETHER OR NOT WE HAVE TO PURCHASE A SPECIAL FILE/CASE/TEXT BOOK FOR YOUR MODULE.

UNISA'S CODE OF CONDUCT:

Please keep in mind that we comply with Unisa's Code and Conduct regarding plagiarism and as we cannot give you the exact assignment answers or exam answers, we will provide you with enough guidance to find the answers on your own and speed up the process.

Dear Student,

Please provide me with your full name and student the last 4 digits of your student number preceded by (****4593).

The advantages of audio files:

ASSIGNMENT PREPARATION: Spend less time searching for the answers.

EXAM PREPARATION: Spend less time desk bound to a book.

LISTEN WHILE YOU WORK, COOK, GO TO THE GYM, DRIVE AROUND PICKING UP YOUR KIDS, SAVE TIME COMMUTING AND USE THIS TIME CONSTRUCTIVELY LISTENING AND LEARNING BY AUDIO. YOUR MEMORY SKILLS AND GRASP OF THE MODULE IMPROVE EXPONENTIALLY WHEN USING AUDIO FILES.

1. Download the audio file directly to your cell phone or computer or if you have a Sandisc device, even better.
2. The audio is in an American voice or British voice, however the accent does not present a problem unless it pronounces the Afrikaans word, which you can always clarify by looking it up in your study guide.
3. Audio files are a very effective way of learning as well as it improving memory skills which are absolutely vital in law, as you can listen to them over and over again.
4. The advantages of having your exam revision notes on audio is that you can do other things whilst learning, like cooking, going to the gym, driving and many other activities which you are not able to do if you are desk bound to a book.
5. Let me know if you require any further assistance with your studies.
6. Most audio files are R350 each per module which cover the cost of making the audio file which are sent directly to your email after

payment is made via:

7. If you require a quote, please send me the modules you need as I have to make them up specially to suit your needs.
8. Case files are also available as well as certain pages of text books which your module will point out as being relevant.
9. There is no need to buy text books or case books or downloading large amounts of files off the internet as this is costly and severely time consuming.
10. It is extremely important that you listen to your audio files no less than three times in order for it to be of significant value to you. As each of us have different abilities you may have to listen more than three times, however I highly doubt it being that you are already a law student.
11. Audio files are a minimum of 30 minutes in length and no more than 60 minutes maximum.
12. After listening to your audio files, you should be able to competently apply the knowledge you've acquired from your audio file and apply it in your assignments as well as in your exams as the audio files concentrate only on the relevant information needed.
13. If you know your audio files well, you should have no problem when having to apply the knowledge to various different complex questions in the exams, as you will be developing your abilities to memories legal rules and principles and applying them to practical situations, which are in fact what the exams are all about.

Kind regards,
