#### QUESTION 5 (10 marks, 12 minutes)

Edward is a sixty-year-old medical doctor based in Johannesburg 
For the past 35 years, he has owned a cottage situated on 20 hectares of bushveld property 
Edward and his family have always used the property purely for vacation purposes

Edward is planning to retire and, in order to enhance his financial position he decided to sell the entire property in 20 one-hectare plots of land. Each buyer has the right and responsibility to build a house, in an approved architectural style, on their portion of land.

Edward is responsible for supplying the necessary infrastructure (electricity, water, sanitation and roads) for each portion of land that he sells—In order to meet his obligations, Edward employed the services of a land surveyor, an architect and a civil engineer—He also contracted a local estate agent to sell the properties and, in addition, he set up a website to market the properties—He also printed a variety of advertising promotional material for widespread distribution

Most of the plots of land were sold during the 2014 year of assessment. Edward regards all the sale receipts as being of a capital nature, which should not be included in his gross income. His stated intention, when originally acquiring the property, was to hold it long-term as a capital asset. As far as he is concerned, the sale of the properties is merely an attempt to realise a capital asset to its best advantage.

REQUIRED:	MARKS
Briefly discuss whether Edward's stated intention is, or is not, supported by the facts and circumstances surrounding the sale of the properties	10
Ignore any capital gains tax implications	
Providing the gross income definition is not required.
